Profile

Frontend Web Developer with practical experience building responsive and interactive web applications using HTML, CSS, and JavaScript. Passionate about creating clean user interfaces and continuously improving programming skills. Seeking an opportunity to contribute to a software development team while growing professionally.

Work Experience

Industrial Training Fund ITF

Sep 2024-Oct 2025

Web development

•Assisted in developing and testing web pages. •Worked with HTML, CSS, and JavaScript. •Fixed bugs and improved website layouts.

Education

National Diploma (ND) - Computer Software Engineering

Dec 2022-Sep 2025

Kano State Polytechnic

Projects

Personal Portfolio Website

Jul 2026-Jul 2026

Frontend web developer

Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript. The website includes a Home section, About, Skills, Projects, Contact Form, Hire Me button, and Download CV feature. It showcases my web development projects and technical skills with a clean and responsive design.

Calculator App

Jul 2026-Jul 2026

Frontend web developer

Developed a responsive calculator application using HTML, CSS, and JavaScript. The calculator performs basic arithmetic operations including addition, subtraction, multiplication, and division. It features a clean user interface, interactive buttons, and real-time calculations.

Weather App

Aug 2026-Aug 2026

Frontend web developer

Built a responsive Weather App using HTML, CSS, and JavaScript with the OpenWeather API. The application allows users to search for any city and displays real-time weather information including temperature, humidity, and weather conditions. It features API integration, error handling, and a modern user interface.

To Do App

Aug 2026-Aug 2026

Frontend web developer

Developed a responsive Todo App using HTML, CSS, and JavaScript. The application allows users to add, edit, delete, and mark tasks as completed. It features a clean user interface, responsive design, and local storage support to save tasks even after refreshing the browser.
